Tel: (022) 28461500/ 1317/ 3012, 9819732195

E: technoosis@gmail.com W: www.technoosis.co.in

Objective

Construction Cost is an important aspect of a construction project. For better financial control on a construction project, it is important that the construction cost is estimated properly at the beginning and then monitored regularly throughout the execution of the project. An accurate estimate also helps in managing cash flows and procuring materials from time to time. Knowledge of rate analysis and billing is useful in understanding variations, extra items and reconciliation of materials.

This Program will provide state of the art understanding of Estimation, Costing & Billing from the viewpoints of a Client, Consultant & Contractor. It will offer practical insight through hands on exercises on spreadsheets (MS Excel) and active interaction with the faculty. It will also guide the participants on preparation of Engineer's & Architect's Certificates as per the requirements of Real Estate Regulatory Authority (RERA).

Program Content

Technical sessions in the Program shall cover the following aspects:

- Quantity Surveying & Bill of Quantities
- Estimation of Cost & Cash Flow
- Bill of Materials & Procurement Schedule
- Rate Analysis
- Measurement, Billing & Recoveries
- Extra Items
- Checking & Certification of Bills
- Reconciliation of Materials & Cost
- Engineer's & Architect's Certificates as per RERA
- Hands on Exercises using MS-Excel Spreadsheets

Pedagogy

The subject matter shall be dealt with through interactive presentations, real life situations and hands-on exercises on MS-Excel.

Faculty

Program will be conducted by the following Industry Experts each having about 35 years' experience:
