

Dear Colleague,

At the outset I would like to congratulate you upon enrolling yourself in the National Register of Professional engineers of the Engineering Council of India (ECI), who are striving to unify all practicing and student engineers under one banner to work towards the betterment of the engineering profession as a whole. Together we hope to bring lasting and valuable changes to the practise of engineering, within all branches.

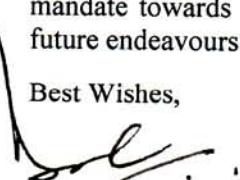

You have taken the first step towards securing a better future both for yourself as well as the trade that you have chosen, because you will be as much a part of this change that we speak of as the professionals already practicing. However merely gaining entry into the fraternity will not be adequate, as you are aware you are required to obtain 50 Continuous Professional Development (CPD) credits per year for a total of 250 within a period of 5 years in order to retain your membership privileges as well as your certification. This requirement is by design and we believe the cornerstone of the quality that ECI hopes to maintain for the engineering profession as a whole.

In this endeavour the programs offered by Construction Industry Development Council (CIDC) will be of immense help to you. The following options are available:

- CIDC Internship program (details are attached in Annexure A)
 - With the steep competition that you now face with regards to employment, the program provides practical training which is what employers are largely looking for in a possible hire, thus increasing your employability.
 - This will assist you in the completion of your internship semester requirement for your engineering degree.
 - It will allow you to amass associated CPDs to be applied towards your membership.
- CPDs through short duration programs, a preliminary list is available online at the ECI website. These can be customized and conducted at the location of choice for a group of 25 or more.

We hope you will take advantage of these programs to further your professional growth and fulfil your mandate towards your professional certification. Team ECI wishes you many successes in all your future endeavours.

Best Wishes,

(Dr. P. R. Swarup)
Member Secretary, ECI
