Sub: **Job Opportunities in Japan- for IT, Electronics and Mechanical Engineering Streams.**

Dear Student,

The rapidly aging population coupled with a massive requirement for trained manpower makes Japan, the technological and economic superpower the most ideal location to work in. There is a massive requirement of engineering professionals in various engineering disciplines. This requirement is expected to grow larger in the coming days. Candidates with the required proficiency in Japanese language as well as with the customary Japanese etiquette skills and norms, are very much respected and preferred. Engineering Council of India (ECI) and SilverPeak Global (I) Pvt Ltd (SPG), have tied up so as to enable candidates from professional Engineering courses in India, to learn the relevant Languages, attain relevant technical skills and gain meaningful employment there, In Japan, SilverPeak Global will enable and act as a facilitator in this endeavour. The Engineering Council of India aids SilverPeak Global in identifying and enabling candidates to apply and avail benefits associated with this program. ECI will ensure that the interests of the applicants are safeguarded by SPG, in conformity with the agreements, if applied through ECI and if not impacted by the applicant's own conduct.

Engineering Council of India (ECI) is a Not-for-profit Society under the Societies Registration Act, 1860, and is the apex body of the engineering profession in India. It is a federation of Indian professional associations / institutions and is mandated to look after and develop the engineering profession in India. More details can be had from its website www.ecindia.org.

SilverPeak Global (SPG) is a Private Limited Company incorporated under the Companies Act, in India, with office headquartered in Japan and spread across 6 nations including India, Japan, Nepal, Philippines, South Korea and Uzbekistan, is licensed as a "Recruiting Agent under the Emigration Act, 1983" and is thus permitted to deploy candidates abroad as per the guidelines set by the Ministry of External Affairs, the Government of India and is also designated as a Sending Organization by National Skill Development Corporation (NSDC) under the Technical Internship Training Program (TITP), an initiative spearheaded by Japan International Training Cooperation Organization (JITCO) and Organization for Technical Intern Training (OTIT), the Minister of Justice and the Minister of Health, Labor and Welfare, Government of Japan.

In the 1st phase, there is a confirmed requirement of **120 nos in IT, 40 in Electronics and 25 in Mechanical areas** for Japan. The skills sets required, the process of selection, fees, training duration etc. are as reflected and mentioned in the enclosed Brochure-**Jobs in Japan** (Annexure 1). The **Application Form** is also enclosed with this letter as Annexure 2.

Students in their last semester of engineering Degree, as well fresh engineers who meet the criteria spelt out in the Brochure are encouraged to apply. **The last date for receipt of application is 15th April, 2021.**

For any further details please contact the undersigned on email address- eci.placement@gmail.com & eci.placement@ecindia.org.

Looking forward to your bright future,

(B. R. Jain)
