

Dear Sir,

We are glad to announce our next webinar on "**Long Span Bridges - State of the Art**" on **12th November 2018 at 3:00 PM**.

"Mr Alok Bhowmick will deliver the lecture on this topic and will give a broad overview of the scientific and technological development that has taken place around the world in the field of Suspension Bridges, Cable Stayed Bridges, Hybrid Bridges, Arch Bridges and Cantilever Girder Bridge having span length more than 150m".

About the Speaker

Mr. Bhowmick has 36 years of rich and relevant experience and has worked on the techno economic feasibility studies, design and construction supervision of river bridges, flyovers, Metro Viaduct & Stations, underpasses, aqueducts, industrial structures and other structural engineering works.

Mr Bhowmick is an eminent structural engineer in India. He has done considerable original works in field of bridge engineering involving modern technology. Shri Bhowmick is an active member of many professional bodies and learned societies. He is involved aggressively in the development of modern set of codes for highway transportation sector through active participation in several code committees of Indian Roads Congress and Bureau of Indian Standards (BIS). He is proactive in many professional bodies like Consulting Engineers Association of India (CEAI), Indian Roads Congress (IRC), International Association for Bridge & Structural Engineers (Indian National Group) (ING-IABSE), Indian Concrete Institute (ICI), Institution of Engineers (India) (IE(I)), Indian Geotechnical Society (IGS) and fib. He is the chairman of the editorial board of one of the oldest quarterly journal in the country (namely "The Bridge & Structural Engineer") published by ING-IABSE. He is a member of the Working Commission (WC3) of IABSE, Zurich on Concrete.

Mr Bhowmick is the recipient of "24th S B Joshi Memorial Award for excellence in Bridge and Structural Engineering", which was conferred to him on 12th October 2018.
